

Loading / Parking Instructions

NO PARKING ON THE GRASS! GRASS AREAS NEXT TO THE BUILDING WILL BE CORDONED OFF

All vendors will be given a specific load-in time; 8am, 9am, 10am, 11am, or 12pm. The loading times are based on location. **Orange numbers below are cones designating where to park, assigned when you arrive**

- 8am, 9am, 10am - You may drive your vehicle inside the building to unload
- 11am - limited space - no trailers!
- 12pm no drive in available
- Please wait to drive into the building until you are shown where to park
- Once in the building please park your car straight, as referenced in the diagram below

IMPORTANT: Please unload your vehicle completely BEFORE SETTING UP YOUR DISPLAY.

- Cars that remain outside to unload are asked to park straight, on each the side of the road (see diagram)
- In the diagram below all cars shown in red are parked incorrectly

IMPORTANT: Once unloaded please move ALL vehicles to the asphalt parking lot behind the building.

Above all, we ask everyone to work together to make load in and load out as smoothly as possible. If cars need to be moved, please speak to one another in a civil tone. If it is determined a vendor is yelling, threatening, cursing, or in any other manner being abusive to another vendor, that may be cause for you not being invited back to the Treasure Valley Flea Market.

Parking in the same manner during load out is the expectation as well.
